All Rights Reserved

No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the Publisher. *Exceptions:* Explicit permission from Academic Press is not required to reproduce a maximum of two figures or tables from an Academic Press article in another scientific or research publication provided that the material has not been credited to another source and that full credit to the Academic Press article is given. In addition, authors of work contained herein need not obtain permission in the following cases only: (1) to use their original figures or tables in their future works; (2) to make copies of their papers for use in their classroom teaching; and (3) to include their papers as part of their dissertations.

The appearance of the code at the bottom of the first page of an article in this journal indicates the Publisher's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (222 Rosewood Drive, Danvers, Massachusetts 01923), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1999 articles are as shown on the article title page; if no fee code appears on the title page, the copy fee is the same as for current articles.

Contents of Volume 253

Number 1, November 25, 1999

Renato Baserga. The IGF-I Receptor in Cancer Research 1

Christian Schindler. Cytokines and JAK–STAT Signaling 7

Graham Carpenter and Qun-sheng Ji. Phospholipase C-γ as a Signal-Transducing Element 15

Maximilien Murone, Arnon Rosenthal, and Frederic J. de Sauvage. Hedgehog Signal Transduction: From Flies to Vertebrates 25

Carsten Hagemann and Ulf R. Rapp. Isotype-Specific Functions of Raf Kinases ... 34

Gen-Sheng Feng. Shp-2 Tyrosine Phosphatase: Signaling One Cell or Many 47

Jeffrey S. Elmendorf and Jeffrey E. Pessin. Insulin Signaling Regulating the Trafficking and Plasma Membrane Fusion of GLUT4-Containing Intracellular Vesicles 55

Chi V. Dang, Linda M. S. Resar, Eileen Emison, Sunkyu Kim, Qing Li, Julia E. Prescott, Diane Wonsey, and Karen Zeller. Function of the c-Myc Oncogenic Transcription Factor 63

Harold Kim and William J. Muller. The Role of the Epidermal Growth Factor Receptor Family in Mammary Tumorigenesis and Metastasis 78

Paolo M. Comoglio, Luca Tamagnone, and Carla Boccaccio. Plasminogen-Related Growth Factor and Semaphorin Receptors: A Gene Superfamily Controlling Invasive Growth 88

Almut Dufner and George Thomas. Ribosomal S6 Kinase Signaling and the Control of Translation 100

Gary S. Stein, André J. van Wijnen, Janet L. Stein, Jane B. Lian, Amjad Javed, Sandra McNeil, and Shirwin M. Pockwinse. Insight into Regulatory Factor Targeting to Transcriptionally Active Subnuclear Sites 110

Tatiana V. Petrova, Taija Makinen, and Kari Alitalo. Signaling via Vascular Endothelial Growth Factor Receptors 117

Wilma J. Friedman and Lloyd A. Greene. Neurotrophin Signaling via Trks and p75 131

Don M. Wojchowski, Richard C. Gregory, Chris P. Miller, Ajay K. Pandit, and Tony J. Pircher. Signal Transduction in the Erythropoietin Receptor System 143

Fried J. T. Zwartkruis and Johannes L. Bos. Ras and Rap1: Two Highly Related Small GTPases with Distinct Function 157

Lars Kjøller and Alan Hall. Signaling to Rho GTPases 166

Ron Wisdom. AP-1: One Switch for Many Signals 180

Elisa Santolini, Anna Elisabetta Salcini, Brian K. Kay, Montarop Yamabhai, and Pier Paolo Di Fiore. The EH Network 186

Eugene S. Kandel and Nissim Hay. The Regulation and Activities of the Multifunctional Serine/Threonine Kinase Akt/PKB 210

Wouter H. Moolenaar. Bioactive Lysophospholipids and Their G Protein-Coupled Receptors 230

B. Vanhaesebroeck and M. D. Waterfield. Signaling by Distinct Classes of Phosphoinositide 3-Kinases 239

5 177HI XL 2139 5/00 31249-200

Jessie English, Gray Pearson, Julie Wilsbacher, Jennifer Swantek, Mahesh Karandikar, Shuichan Xu, and Melanie H. Cobb. New Insights into the Control of MAP Kinase Pathways 255

Kris A. DeMali, Stephen L. Godwin, Stephen P. Soltoff, and Andrius Kazlauskas. Multiple Roles for Src in a PDGF-Stimulated Cell 271

Erratum

Volume **250,** Number 2 (1999), in Article ID excr.1999.4507, "The Nuclear Localization Signal of the Human Ku70 Is a Variant Bipartite Type Recognized by the Two Components of Nuclear Pore-Targeting Complex," by Manabu Koike, Togo Ikuta, Takashi Miyasaka, and Tadahiro Shiomi, pages 401–413..... 280

Number 2, December 15, 1999
